

The College of Naturopaths of Ontario

Inspection Committee Report

The Clara Clinic
623 Gerrard Street East,
Toronto, ON
M4M 1Y2

Following a review of the Inspector's Report and all other documentation pertaining to the inspection conducted on January 16, 2023 of the above premises the Inspection Committee has issued an outcome of a pass with conditions.

Conditions

The condition is:

1) As per Inspection Program Requirements 1.3.8: A crash cart is immediately available and fully stocked, and 2.3: Items Required on Crash Cart – Dextrose 5%, and nitroglycerin.

The Committee requires that dextrose 5% and nitroglycerin are stocked on the crash cart.

Recommendations

When Inspection Program Requirements are partially met and do not warrant a condition being placed on the premises, the Inspection Committee makes recommendations to the premises.

The Committee makes the following recommendations:

i) As per Inspection Program Requirement 1.3.3: Fire exits are clearly marked, and evacuation maps are prominently displayed in all patient areas.

The Committee recommends that evacuation maps are located throughout the clinic in all patient areas.

ii) As per Inspection Program Requirement 2.4.8: Equipment and Supplies Readily Available – natural anxiolytic.

The Committee recommends that a natural anxiolytic is stocked and readily available.

iii) As per Inspection Program Requirement 3.1: An IVIT drug/substance inventory record, which includes expiration dates and lot numbers, is available.

The Committee recommends that a system is developed and implemented to track the inventory of drugs and substances used for IVIT procedures and that the inventory record includes, at a minimum, expiration dates and lot numbers and kept up to date.

iv) As per Inspection Program Requirement 3.6: A refrigerator temperature log is available.

The Committee recommends that the refrigerator temperature log in place is maintained.

v) As per Inspection Program Requirement regarding the Policies and Procedures Manual 4.9.1: All forms used at the premises (e.g. intake forms, IV treatment form, consent, Type 1 occurrence report, Type 2 occurrence tracking).

The Committee recommends that all forms used at the premises, such as intake and consent forms, are included in the Policies and Procedures Manual.
