Inspection Committee Report

Core Link Wellness Centre

2238 Caroline Street

Burlington, ON

L7R 1M6

Following a review of the Inspector's Report and all other documentation pertaining to the inspection conducted on November 16, 2018 of the above premises the Inspection Committee has issued an outcome of a pass.

Recommendations

When Inspection Program Requirements are partially met and do not warrant a condition being placed on the premises, the Inspection Committee makes recommendations to the premises.

The Committee makes the following recommendations:

i) As per Inspection Program Requirement 4.1.1.1: A general drug/substance inventory record is maintained including expiration dates.

The Committee recommends that a process is developed and implemented to track the inventory of IVIT drugs and substances, such as the use of an inventory log sheet, and that the expiration dates are included.

ii) As per Inspection Program Requirement 6.3.2: The patient chart contains a signed informed consent form.

The Committee requires that informed consent is always obtained and documented in the patient record as per the *Standard of Practice for Consent*.

iii) As per Inspection Program Requirement 6.5.10: The proposed treatment plan is fully documented.

The Committee recommends that the treatment plan always be documented in the patient chart.

iv) As per Inspection Program Requirements 8.1.5: Took pre-treatment vital signs, 8.2.3:

Monitored vital signs during treatment, and 8.2.5: Post-treatment vital signs taken.

The Committee recommends that the pulse oximeter reading is always taken and documented when taking vital signs prior to, during and after treatment.
