Inspection Committee Report

Soma & Soul Wellness
1089 Kingston Road, Unit 4B
Toronto, ON
M1N 4E4

Following a review of the Inspector's Report and all other documentation pertaining to the Part I New Premises inspection of the above premises conducted on February 26, 2019 the Inspection Committee has issued an outcome of a pass.

Recommendations

When Inspection Program Requirements are partially met and do not warrant a condition being placed on the premises, the Inspection Committee makes recommendations to the premises.

The Committee makes the following recommendations:

- i) As per Inspection Program Requirement 2.3: Drugs required on crash cart.

The Committee recommends that calcium gluconate and magnesium chloride be kept on the crash cart itself and not just be available within the premises.

- ii) As per Inspection Program Requirement 3.2.1: Infection control signs are posted at the entry and at the reception desk.

The Committee recommends that signage pertaining to infection control be posted in all required areas including at the reception desk.

- iii) As per Inspection Program Requirement 11.6.9: Response to latex allergies.

The Committee recommends that the Policies and Procedures Manual contains procedures to be followed when responding to a latex allergy.

- iv) As per Inspection Program Requirement 11.8.1 All standard forms used at the premises (intake forms, IV treatment forms, consent form, etc).

The Committee recommends that all IVIT forms be included in the premise's Policies and Procedures Manual.
